

EMBEDDED ENGINEER (M/F/D)

STRATEC develops and produces fully automated analyzer systems under the name of many of the leading global in vitro diagnostics companies as well as Hematology and Clinical Chemistry systems that are marketed under the Diatron

BECOME PART OF OUR TEAM

KEY RESPONSIBILITIES

- You would create firmware for internally designed circuit boards and take part in the creation of software test fixtures for automated testing

KEY REQUIREMENT

- More than 2 years of experience as an Embedded Engineer
- University bachelor's degree preferably in Electrical Engineering, Computer Engineering, or related.
- Electronic design knowledge
- Good ANSI C / C++ knowledge
- Experience in firmware development on physical microcontroller boards
- Good understanding of analog circuit interactions
- Have good communication skills in both spoken and written English

HAVE WE SPARKED YOUR INTEREST?

At STRATEC, you can expect a dynamic team, an open working culture, and a flat hierarchy. We are proud to offer long-term employment prospects and challenging and varied tasks. We are looking for new employees who show initiative and are willing to take on different challenges creatively and dynamically.

Please send us a copy of your latest CV along with your salary requirements and earliest start date to the following address: JobsCluj@stratec.com.
