

SOFTWARE TESTER (M/F)

STRATEC develops and produces fully automated analyzer systems under the name of many of the leading global in vitro diagnostics companies as well as Hematology and Clinical Chemistry systems that are marketed under the Diatron brand.

Become part of our team:

KEY RESPONSIBILITIES

- Design tests using recognised test techniques
- Create, update and execute test documentation
- Prepare, configure and maintain test environments, including test data
- Record and track defects

KEY REQUIREMENTS

- Educated to degree level or possesses relevant experience
- Experience of testing software in a commercial and fast paced environment
- Knowledge of structured test methods and processes
- Experience in working within a regulated environment or following a Quality Management System
- Knowledge of Software Development Lifecycle models and how this impacts on the testing approach

INTERESTED?

At STRATEC you can expect a dynamic team, an open working culture and a flat hierarchy. We pride ourselves in offering a long-term employment perspective as well as challenging and varied tasks.

Please send us a copy of your latest CV along with your salary requirements and earliest start date to the following address: careers.uk@stratec.com. If you have any questions or wish to speak to a member of the HR team, please contact **07082/7916-199**.
